We have Need a good tool for batch photo editing? The app that you should try is "SuperMemo" SuperMemo is a way to learn something. As the name suggests, you can use it to learn new things, such as a new language, or for revising old memories. You can record your thoughts, which are transformed into a form of code. You can play this code back, and do various tasks, such as reducing, eliminating or adding words. What makes SuperMemo so useful is that it can be used with any pictures. You can add interesting effects to pictures, and then play the new files back. You can use the timeline function to play back what you did, and then change things to a different setting, or add more effects to the pictures. It allows you to connect multiple devices, so you can edit pictures on your smartphone or tablet, as well as edit them on your computer. It's a great way to take images to the next level. PLEASE CHECK OUT OTHER AMAZING SUPERMEMO HACKS OF 2016 AS WELL: Youtube (SUPERMEMO IN YOUR YOUTUBE CHANNEL) Facebook (SUPERMEMO IN YOUR FB PAGE) These two links will take you to the supermemo youtube channel and facebook page for 2016.
